Spring Field Day Planned June 5 in Garden City

GARDEN CITY, Kan. – The focus is on wheat and triticale at the Spring Field Day planned for Friday, June 5 at the K-State Southwest Research-Extension Center in Garden City.

The educational event begins with registration and introductions at 4:30 p.m. K-State Research and Extension specialists will provide the latest information on wheat varieties, plus managing diseases and insects that pose a challenge to wheat production.

A presentation on triticale forage varieties wraps up the program, which is followed by a complimentary supper.

More information about the Spring Field Day is available by calling 620-276-8286.

K-State Research and Extension is a short name for the Kansas State University Agricultural Experiment Station and Cooperative Extension Service, a program designed to generate and distribute useful knowledge for the well-being of Kansans. Supported by county, state, federal and private funds, the program has county Extension offices, experiment fields, area Extension offices and regional research centers statewide. Its headquarters is on the K-State campus in Manhattan.
