## OUR MISSION

*Serve the people of western  
Kansas by developing new  
knowledge and technology to  
stabilize and sustain long-  
term, profitable production of  
food and fiber in a manner  
consistent with conservation  
of natural resources,  
protection of the environment,  
and assurance of food safety.*

*Emphasis is on production  
efficiency in order to increase  
profit margins for producers  
in the long term.*
