

American Society of Agricultural and Biological Engineers Names Freddie Lamm as Fellows of the Society

Date: Friday, August 07, 2015

The American Society of Agricultural and Biological Engineers (ASABE) has named twelve individuals as ASABE Fellows. They were inducted at a ceremony on July 27 at the 2015 ASABE Annual International Meeting, held in New Orleans. One of the twelve named to the class of 2015 ASABE Fellows were:

FREDDIE RAY LAMM, P.E., professor and research irrigation engineer, Kansas State University, Northwest Research-Extension Center, Colby, Kansas, for his extensive record of influential and creative research, education, and service to the community of irrigation engineers and scientists.

To be considered for the grade of ASABE Fellow, an individual must demonstrate unusual professional distinction, with outstanding qualifications and experience in the field of agricultural engineering. Twenty years' membership in ASABE is also required. Only about two percent of the active members of ASABE have achieved the grade of Fellow.

The American Society of Agricultural and Biological Engineers is an international scientific and educational organization dedicated to the advancement of engineering applicable to agricultural, food, and biological systems. Its members, from more than 100 countries, are consultants, managers, researchers, and others who have the training and experience to understand the interrelationships between technology and living systems. Further information on the Society can be obtained by contacting ASABE at www.asabe.org.
